SINCE 2014

Built on Trust. Proven by Continuity.

Since 2014, G Express has supported businesses and leading financial institutions with secure, reliable and scalable logistics solutions. Our continuity in the Egyptian market reflects the trust we build, the commitments we honour and the operational standards we maintain every day.

That record was earned in one of the most demanding service environments in the country: banking logistics, where every document, token and collection must be handled with discipline, traceability and absolute confidentiality. The same standards now carry our e-commerce and cash-on-delivery operations.

Trust

Long-standing relationships with institutions that audit their partners closely.

Continuity

Uninterrupted service through changing market conditions.

Reliability

Consistent execution across every governorate we serve, every working day.

A logistics operator built inside the banking sector

Built on extensive experience in secure banking logistics, G Express is expanding its capabilities to serve Egypt's growing e-commerce and COD sectors. We combine institutional-level reliability with the flexibility, speed and scale modern businesses require.

Our teams handle sensitive documents, high-value items and collected cash every day. That discipline is not a new capability we are adding for e-commerce — it is the standard our operation was designed around.

OUR MISSION

To enable our clients to operate flexible, reliable and resilient delivery networks — with secure handling, accountable tracking and the capacity to scale as their volumes grow.

OUR VISION

To be the delivery partner Egyptian institutions and merchants keep for the long term — measured by continuity, not by campaigns.

Extensive nationwide network

An extensive network of branches, operational points and couriers supporting reliable pickup and delivery across Egypt.

500+ couriers on the ground

A field force covering all major destinations in Egypt.

Two service lines, one standard

Banking and corporate logistics alongside e-commerce and COD delivery.

Our strength in numbers

Confirmed operational facts — no estimates.

Since 2014

Operating in the Egyptian market

A proven record of continuity, trust and operational experience in the Egyptian market.

500+

Couriers

An on-ground force covering all major destinations in Egypt.

Nationwide Operational Network

An extensive network of branches, operational points and couriers supporting coverage across Egypt.

Dedicated Operational Fleet

An operational fleet supporting strong and scalable delivery operations.

Major Banking & Corporate Clients

Serving leading banks, retailers and global brands operating in Egypt.

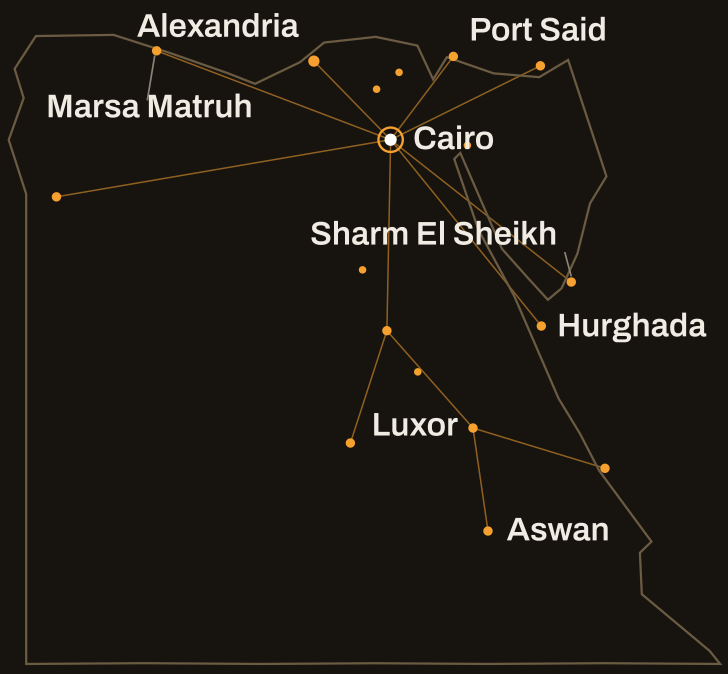

High-Volume Operational Readiness

Built to handle high-volume delivery operations and scale with client demand.

Built for Scale. Ready for Volume.

Our network reaches all major destinations in Egypt, connecting Cairo and Alexandria to the Delta, the Canal cities, Upper Egypt, the Red Sea coast and the Western Desert.

Capacity is planned around the client. Routes, courier allocation and collection cycles are adjusted to match volume, seasonality and service-level requirements — from individual deliveries to high-volume operations.

01 **Nationwide delivery coverage**
One partner for the whole country, not a patchwork of local agents.

02 **Scalable operations**
Courier capacity expanded in step with growing shipment volumes.

03 **Customised operational plans**
Built around each client's routes, cut-off times and reporting needs.

OUR GROWTH FOCUS

E-commerce Last-Mile & Cash on Delivery

Merchants need two things from a delivery partner: parcels that arrive as promised, and collected cash that is handled with the same care as the parcel. We are built for both.

Last-mile delivery

- Lightweight parcels and flyer delivery
- Medium-sized and bulky shipments
- Nationwide delivery coverage
- Scalable operations for high shipment volumes

Cash on Delivery

- Cash on Delivery (COD) collection
- Secure cash collection and handling
- Accountable, traceable delivery operations
- Organised settlement of collected amounts

Storage & distribution

- Storage and distribution solutions
- Fulfillment support
- Heavy and bulky item handling

Built around your operation

- Customised operational solutions
- Capacity planned to your volumes
- Dedicated courier allocation on request

Cash is treated as cargo. Collections are handled under the same controls we apply to banking consignments: named accountability, documented hand-over and disciplined settlement.

Banking-Level Security. Business-Ready Flexibility.

Banks do not choose delivery partners lightly. Our work with leading financial institutions is the clearest evidence of our security standards, operational discipline and reliability — and it remains a core part of our business.

Secure banking document delivery

Confidential documents moved between branches, clients and head office under controlled custody.

Internet banking token delivery

Secure delivery of internet-banking security tokens to named recipients.

Dedicated courier services

Couriers assigned to a single institution, working to its procedures and schedules.

Overnight delivery services

Time-critical consignments moved overnight for next-morning availability.

Integrated mailroom management

Front- and back-end mailroom operations managed on the client's premises.

Secure and traceable operations

Documented hand-over at every stage, with accountability held by named staff.

Licensed document delivery

G Express operates under a valid postal licence, providing organisations with professionally managed and compliant document-delivery services — from sensitive banking documents to corporate correspondence, handled with the security, traceability and discipline institutional clients require.

Trusted by Leading Banks and Global Brands

Institutions with the strictest security and service requirements in the Egyptian market.

Eight reasons clients stay with us

01 Operating since 2014
A track record you can verify, not a start-up promise.

02 Trusted by major institutions
Banks, retailers and global brands operating in Egypt.

03 Nationwide delivery coverage
All major destinations across the country.

04 Secure COD and cash handling
Collections controlled and settled with full accountability.

05 Scalable high-volume operations
500+ couriers, with capacity planned to your volumes.

06 Flexible solutions
Service models shaped to different business needs.

07 Banking-level discipline
Procedures written for institutions that audit their partners.

08 Long-term partnership mindset
We plan for the next contract cycle, not the next shipment.

Responsive Support, Around the Clock

Our customer-service operation is designed to support clients around the clock with fast, consistent and accessible assistance. A dedicated chatbot provides immediate support for common enquiries and helps connect customers with the information they need.
